## CAMI Mathematics: Grade 4

### 4. Measurement

#### 4.2 Mass

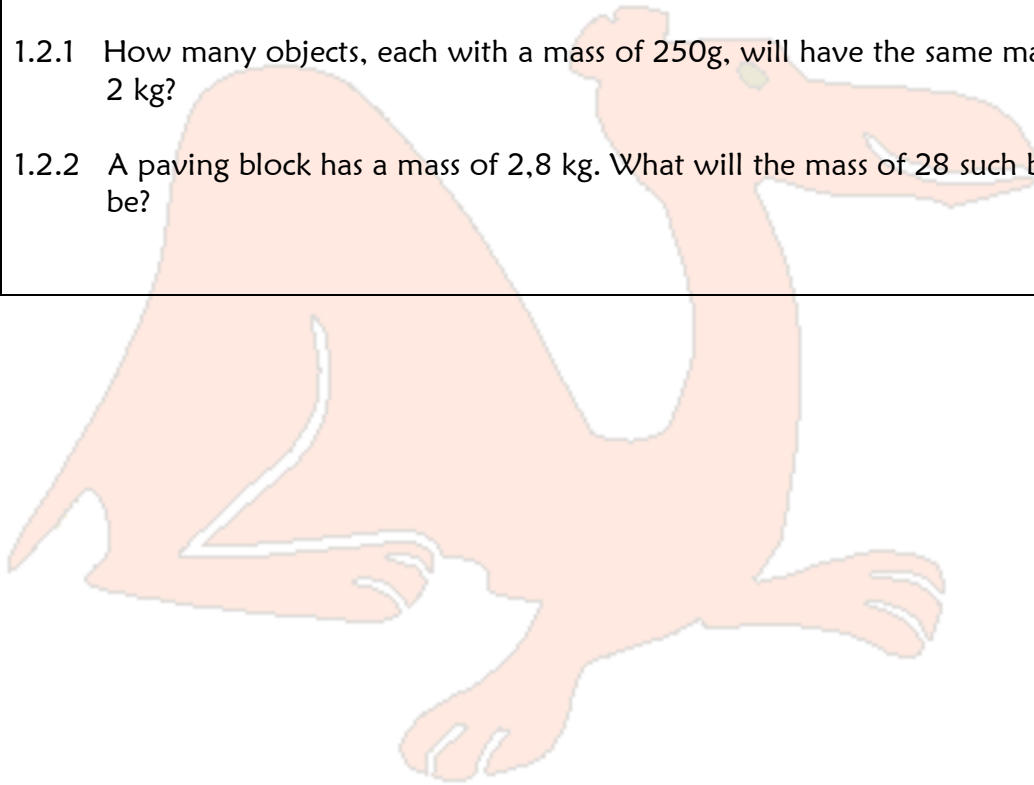

1.1 Complete the table by converting between the various units.

Gram(g)	Kilogram(kg)
570	
	5 689
1 259	
	358

1.2 Problem solving.

1.2.1 How many objects, each with a mass of 250g, will have the same mass as 2 kg?

1.2.2 A paving block has a mass of 2,8 kg. What will the mass of 28 such blocks be?

## CAMI Mathematics: Grade 4

### MEMO

1.1 Complete the table by converting between the various units. [9.1.2.2]

Gram(g)	Kilogram(kg)
570	0,57
5 689 000	5 689
1 259	1,259
358 000	358

1.2 Problem solving [3.8.6.2]

1.2.1  $250 \text{ g} = 0,25 \text{ kg}$   
 $2 \text{ kg} \div 0,25 \text{ kg} = 8$

1.2.2  $2,8 \text{ kg} \times 28 = 78,4 \text{ kg}$
